

Documents and procedures: Purebred Andalusians

Membership: We encourage you to become a full member and received registration discounts, magazine and much more.

DNA & Parent Verification: All horses being registered must have DNA analysis performed to confirm parentage against both parents (Sire & Dam). DNA kits can be ordered through the AFAH with each accompanying registration application (*Please do not send us the money for this kit before we receive a filled out and completed registration application, as we need the information from the application to complete the DNA forms*). If the horse has already had a DNA analysis performed then the name of the laboratory and case number are required. We can only verify parentage if all 3 horses (Sire, Dam and Foal) are DNA profiled. If you have any questions on this contact the office.

Pedigree: A clear, complete (front & back) copy of the Sire and Dams registration papers with an approved registry must also be sent with each registration application.
